Update 01/03/2023

## **Material Specifications**

Construction Fixings Stainless Steel Stainless Steel

# **Equipment Specifications**

Free Height of Fall	Not required	
Fall Zone Size	e Size Not required	
Activity Space Recomm.	Allow 1m around equipment	
Highest Point	Max. 600mm	

# **Other Required Information**

Spare Parts Largest Part Heaviest Part Available to order Trough 21 - 40kg Two Person Lift

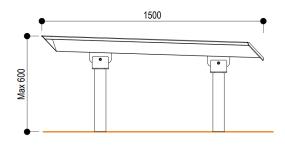

## Standards

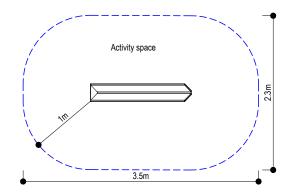

AS 4685 2021 Series

# **Applications**

Age Group	3 years +			
Supervision Level	Young children should be supervised and inappropriate activities discouraged			
Playspaces	Public parks, schools, early childhood centres commercial play areas			
Environment	Shade preferred for user comfort and protection. Salt air environments may reduce life of steel.			
Vandalism Resistance	Low susceptibility			

## **Product Dimensions**

# Water Trough 1500mm Manufacturers Information | PN1224

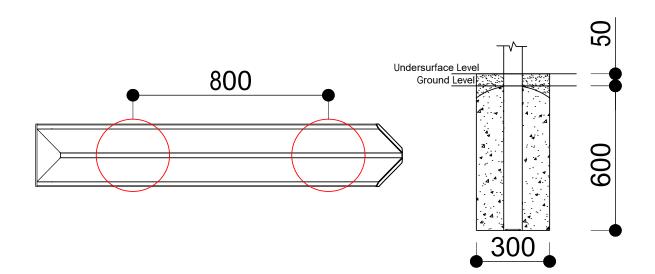

Update 01/03/2023

## Installation

<b>Footing quantities and depths</b> From ground level	Item	Qty	Hole Diameter	Hole Depth
	Posts	2	300mm	600mm

#### Note:

This product is designed for 50mm softfall. Check the proposed on site softfall depth. If it is not 50mm, please adjust depths of post holes accordingly, to achieve correct overall subsurface depth. This will maintain correct height of equipment above undersurface level.

## **Inspection Notes**

All inspections and maintenance to be carried out by competent people with the appropriate knowledge, experience and authority.

#### **Inspection Frequencies**

These are a guide only - local risk factors such as heavy usage, nearness to coast, and vandalism patterns need to be taken into account.

## **Routine Visual Inspection - Daily**

## **Operational Inspection - Quarterly**

Check for breakages, loose fittings and debris. Where safety issues are identified, quarantine until repaired.

RVI plus:-Check for wear in moving parts e.g. bearings, chains and links. Check security of fixings.

#### **Comprehensive Inspection - Annually**

#### OI plus :-

Check for structural rigidity and degradation e.g. corrosion, decay etc. Where possible, remove undersurfacing to examine condition of supports and footings.

## **Maintenance - Annual**

In areas of high exposure to sun, wind and rain more frequent treatments may be necessary. Note: Ensure all replacement parts conform with manufacturers original specifications Note: In heavy use environment, more frequent inspection regime recommended Note: Quarantine equipment during installation, inspection & maintenance
